How to Burn Podcasts to CD

Sure, podcasts are interesting - so why not burn them on a CD? (iTunes)

Steps

1. By clicking the "+" in the lower left corner you create a new playlist - you can also name the playlist.
1. Click "Podcasts" and select the Podcasts - you are able to select them while holding the "command/cmd" or control (PC) key.
2. Drag the Podcasts into your playlist.

3. Drag the Podcasts into your playlist.
4

Take a CD and put it into the drive.
5

Just click "Burn" in the lower right corner of the screen - you should only have to click "Burn" again in the new window.

When the CD is done, play it!
