Scope: Federal and State Court Systems and the Rules of Civil Procedure

You must create and submit your outline for this course to me. The draft of the start of your outline is due October 2nd before your midterm examination on October 4th. We have workshops that help you create good outlines which will help you succeed in law school. You should start working on your outline by the end of the second week of classes.

You will prepare a complaint that would be accepted for filing in a federal court. You will also take a final examination on December 11th.

Course Objectives: The objective of this course is for the student to have a thorough understanding of the federal and state court systems and the rules and procedure that are used in those systems. The student will master this material in order to be better advocates, to resolve disputes to better serve their client's interests and to be excellent problem solvers and litigators.

Grading Criteria: The outline you prepare for this course, your quiz scores, midterm examination, oral presentation, lack of class participation and final examination will all contribute to your final grade in this class. This is your first step in the legal profession and you are expected to be fully prepared, professional and respectful to each other, and to the faculty and staff.

There is supplemental material including an audio review and Power Point presentation online and in the media lab to help you master the material.
